or  
Ness SIM  
options

Full time 3G GSM monitoring – No landline required!

Includes Power Supply, Internal Backup Battery, External Antenna

Ness 106-249 GSM Dialler V3 provides a full time 3G GSM pathway for alarm diallers to communicate in the absence of a land line.

Ideal for Naked phone line households, 'NBN only' premises, remote locations and anywhere you need easy and reliable dialler monitoring via GSM.

- Plug-and-go operation - no programming required.
- Antenna with magnetic base supplied - long cable allows the unit to be installed in a secure housing.
- LCD status display.
- Plug pack powered with onboard battery backup.

Control Panel / Dialler

GSM Unit

3G GSM pathway to central station or any phone.
